## ANNEXURE-I

Table. Indicates comparison in the marks of students obtained through teaching with traditional and H5P method.

| H5P METHOD | TRADITIONAL METHOD |
|------------|--------------------|
| 6          | 7                  |
| 8          | 5                  |
| 5          | 8                  |
| 10         | 7                  |
| 8          | 10                 |
| 6          | 9                  |
| 7          | 5                  |
| 8          | 7                  |
| 5          | 4                  |
| 6          | 10                 |
| 10         | 10                 |
| 10         | 9                  |
| 9          | 7                  |
| 8          | 4                  |
| 6          | 5                  |
| 8          | 5                  |
| 7          | 7                  |
| 9          | 9                  |
| 5          | 6                  |
| 10         | 4                  |
| 9          | 8                  |
| 7          | 7                  |
| 6          | 4                  |
| 8          | 5                  |
| 10         | 9                  |
