S.NO	STATEMENTS	AGREE	NEUTRAL	DISAGREE
1	E-learning is very economically for educational institutes to adopt			
2	I believe that using E-learning will improve the quality of study .			
3	Use of computers generally make content of the subject more interesting .			
4	Using computer system requires a lot of mental effort .			
5	It is easier to revise electronic educational materials than any of printed material .			
6	I generally prefer using a computer to prepare my lessons			
7	I and my student enjoy teaching learning through E-content .			
8	E-learning requires very expensive technical support .			
9	Interacting with the e-content sometimes problematic .			
10	A face-to- face method is more learner - centred than teaching through electronic methodology .			

S.NO	STATEMENTS	AGREE	NEUTRAL	DISAGREE
11	I believe that using E-learning technologies will improve me professionally .			
12	I read materials (general magazines , books) related to using new technologies .			
13	Teaching through E-learning is boring.			
14	E-learning increases learners social isolation.			
15	E-learning makes my class more inclusive .			
16	My institution has enough teaching-learning resources to carry out E-learning .			
17	E-learning is a threat to teachers profession or employment .			
18	E-learning provides me better education opportunities to bring quality education in my class .			
19	E-learning infrastructure is very expensive for the government to afford .			
20	I like discussion with my colleagues on E-learning discoveries and invention to keep myself updated .
