APPENDIX: - RESEARCH TOOL

A Study of Awareness of Environmental Pollution Among Primary School Students

Dear Students

The questionnaire in your hand is not for any examination, this has been prepared to know about awareness on environmental pollution. There is no question of pass and fail. Neither you will be punished for the fault nor you be prized for the best answer. So, you should not worried. There are only 20 questions. Read carefully, try to understand all questions and give your answer.

Hope, now it is all clear. Be ready. Read carefully and try to answer all the questions.

Regards

Investigator

Ratna Prava Sahu

Three-Year Integrated B.Ed.-M.Ed.

Regional Institute of Education, NCERT, Bhopal

Please fill up the following information.

Name of the student:

Standard: Age:

Gender:

Address:

Choose the correct option in the following questions:

1. Pollution is very _____ for us.

- a) harmful b) good c) healthy d) nutritive

2. We should throw the garbage in _____.

- a) school bag b) dustbin c) kitchen d) almirah

3. Rivers get dirty by _____.

- a) bathing animals in the rivers. b) disposing dirty water into rivers.
c) throwing garbage d) all of the above

4. We can clean water and make it worth drinking by which of the following method-

- a) Freezing and evaporation b) Boiling
c) Freezing and boiling d) Putting it in refrigerator

5. Water is dirty when _____.

- a) it is flowing through village. b) it is transparent.
c) there is a change in colour of water with a good smell.
d) there is a change in colour of water with bad smell.
